

BUDGET PLUS EASY SET

BDJ BUDGET PLUS EASY SET

BDJ BUDGET PLUS EASY SET This is an advanced yet cost-effective tool designed for FTTH installers working with small-diameter cables. The greatest advantage of this version is its special split head, which allows the cable to be removed quickly at any time without having to cut it. The device is extremely practical in the field, as it is powered directly from a standard cordless screwdriver. Its flexible design allows it to work with both smaller piston compressors and larger units with a capacity of up to 1 m³/min. Furthermore, the complete set already includes replacement rollers, meaning there are no hidden costs and it is ready for immediate use.

Range:	700 m
Pipe:	7, 10 mm
Micro-cables:	0,7 - 6 mm

PRODUCT DETAILS

- **Innovative split head** – allows the cable to be removed easily at any time without the need to cut it.
- **Optimised for FTTH** – precise and safe blowing of small fibre-optic cables.
- **Screwdriver drive** – simple, portable power supply without the need to purchase expensive motors.
- **Pneumatic versatility** – works with small piston compressors as well as larger ones with a capacity of up to 1 m³/min.
- **Complete set (Easy Set)** – the screwdriver, interchangeable rollers and necessary tools are all included in the package, eliminating additional costs.
