DRAGON AIR

Two outlets: 7 and 15 bar

Built-in cooler

Stainless steel construction

Compressor Dragon Air

Compressor Dragon Air is a device designed for the optimal blowing of fibre-optic cables, as well as for use with other equipment that does not require high pressure. Thanks to its compact design, it combines portability, efficiency and versatility.

PRODUCT DETAILS

- > **Operating pressure:** 15 bar
- > **Flow rate:** 1 m³/min
- > **External dimensions:** 73 x 115 x 90 cm (width x length x height)
- > **Weight:** 209 kg
- > **Compressed air outlet:** 2 x G ¾"

TECHNICAL SPECIFICATIONS

Operating pressure	15 bar / 7 bar
Capacity	1 m ³ /min
Air outlet	2 x G ¾"
Weight	209 kg
Dimensions (W x L x H)	73 x 115 x 90 cm
Engine – Manufacturer/Type	Briggs & Stratton / Vanguard 23HP
Engine – Power	17.2 kW
Engine – Starting	Electric (12V) + manual emergency
Fuel tank	6.5 litres

APPLICATION

- > Fibre-optic blowing
- > Power supply for mole machines for small-diameter jacking
- > Powering hammers and other pneumatic tools
- > Cleaning operations: sandblasting, soda blasting, dry ice blasting
- > Spraying PUR foam insulation
- > Installations in mobile service vehicles
- > Carrying out leak tests on systems

WARRANTY AND SERVICE

We offer a standard 3-year warranty, which can be extended to 5 years. The extended warranty is subject to an annual service carried out by one of our authorised service partners.
