# HYDRO CHAIN MULTI TUBE

- Generator included

## BDJ HYDRO CHAIN MULTI TUBE

**HYDRO CHAIN MULTI TUBE** A powerful hydraulic machine designed specifically for the simultaneous insertion of microtube bundles in various configurations. Equipped with a chain feeder and motors with a pushing force of 2000 N, it easily copes with the high resistance and weight of multiple pipes in main pipelines (32, 40, 50 mm). Its key advantage is complete flexibility in bundle configuration, allowing the machine to be quickly adapted to the current multi-duct project. Crucially, the unit is supplied complete with a professional Hycon hydraulic power unit and hoses, forming a standalone system ready for the toughest tasks. It is the ideal choice for companies building modern fibre-optic infrastructure.

| Coverage: | 1500 m                                     |
| Pipe:     | 32, 40, 50 mm                              |
| Packages: | 3-5×10 mm / 7×10 mm<br>3-5×12 mm / 7×12 mm |

### PRODUCT DETAILS

- Designed for microtubes (Multitube) – the perfect solution for blowing tube bundles in a wide variety of configurations.
- Powerful hydraulic force – a pushing force of 2000 N allows for efficient overcoming of resistance during repeated installations.
- Chain feeder – ensures a perfect, even grip on the entire bundle of microtubes without the risk of deforming them.
- Hycon power unit included – a complete hydraulic power supply, including hoses, supplied as standard (a huge investment advantage).
- Ready for action – a fully equipped, professional kit ready for immediate deployment on site.

# TECHNICAL SPECIFICATIONS

|                            |                                         |
|----------------------------|-----------------------------------------|
| Supported packages         | 3-5×10 mm / 7×10 mm 3-5×12 mm / 7×12 mm |
| Casing diameter            | 32, 40, 50 mm                           |
| Max. blowing length        | 1500 m                                  |
| Max. blowing speed         | 80 m/min                                |
| Max. operating pressure    | 10 bar                                  |
| Machine dimensions (L×W×H) | 850×400×300 mm                          |
| Machine weight             | 42 kg                                   |
| Total weight of the set    | 55 kg                                   |

## CONTENTS OF THE SET

- Hydro Chain Multi Tube.
- Sets of seals and clamping brackets for microtubes
- End caps for microtube packs.
- 10 m air hose
- Hydraulic hoses with a pressure regulation system.
- Transport case
- Tool kit
- Operating instructions.
- Hydraulic power unit

## COMPRESSOR

**Recommended Compressor:**  
ATMOS PDH76 | KAESER M82A

## WARRANTY AND SERVICE

We offer a standard 3-year warranty, which can be extended to 5 years. The extended warranty is subject to an annual service carried out by one of our authorised service partners.
